As our first 'comfort height' WC, the Colina pan is designed to sit slightly higher than a standard pan making it a more comfortable solution for taller people as well as those with back or joint problems. The stylish, modern design makes this WC suitable for use with the majority of our basins, pedestals and furniture.

Innovative WCs

In-Tank Meridian WCs

The unique In-Tank WC is a revolutionary bathroom fitting concept which incorporates the tank in its interior. It is the first WC to offer wall-hung and back-to-wall options which do not require a concealed cistern, facilitating ease of installation and creating an ideal solution for small spaces.

Water enters the tank and then air is introduced by a revolutionary blower which has been developed in collaboration with Fluidmaster.

This innovative blower pushes the water through the toilet rim to flush the WC. Works on mains pressure only.

Requires electrics.

Front and Nash Function Rear Wash

Water Termperature With the push of a button, a stream of water performs the function of washing either front or rear (highly recommended for feminine intimate hygiene). In addition, the temperature (3 levels) and water pressure / intensity can be adjusted according to the user.

Drying Function Drying

Air Temperature

An air flow with adjustable temperature (3 levels) facilitates drying of wet areas after washing with the push of a button.

Soft-Close Seat

> Seat **Temperature** (Premium Seat only)

Antibacterial Material

The seat with adjustable temperature (3 levels), provides a pleasant sensation. Roca's soft-close system guarantees a fall and closure of the soft and noise-free toilet lid. In addition, all Multicleans have a busy function, by means of a sensor that indicates if someone is sitting, preventing the use of functions if the seat is not occupied.

The water jet that performs the washing automatically extends while it is running, remaining hidden when it is not active. After each use the water jet is self-cleaning with water at the end of its use.

Advance Functions

Water Pressure

Water pressure regulation (5 levels)

Water Jet Position

Regulation of the position of the water jet. (5 positions before or after the standard position).

Oscillating cleaning

Function that allows to extend the washing zone thanks to the movement of the water jet forward and backward.

Pulsating

Function that by means of an intermittent water jet performs the cleaning function.

Remote Control

Remote control, totally intuitive, for greater comfort and well-being.

(Premium seat only)

LED light

Energy Saving

The seat will automatically move into sleep mode when not in use.

Deodoriser

Eliminates Odours.

Wall-hung Surfex® basins

Modo - Customisable basins

On a highly aesthetic and functional level MODO has been developed, the first collection formed from a new solid surface material, SURFEX®. The collection is formed of washbasins, shelves and baths, available in a range of sizes.

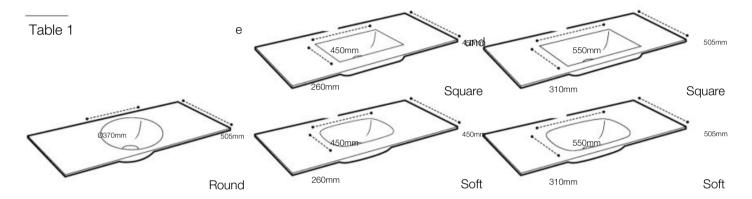

Modo washbasins are fully customisable allowing you to create a solution for your space requirements.

For ease of reference, please find below the pricing structure.

qu r

To build your customisable basin and calculate the RRP

- 1. Choose the basin shape, size and taphole configuration, see Table 1
- 2. Add additional bowls if required, see Table 2
- 3. Choose basin skirting options, see Table 3

9	SofTurn [®]	SofTurn® cartridge technology gives the user precise control over water flow and temperature. The development of this technology has been possible as we are one of the few manufacturers who design, develop and manufacture our own cartridges.
T	Joystick-Turn®	An innovative concept in water control, joystick technology presents a style which is distinct from the more traditional single lever, but which gives the same performance as SofTurn® technology.
6	Progr-Turn [®]	Taps with progressive technology always start the flow with cold water and as you continually turn the control the flow changes to a mix of hot and cold meaning water systems are only activated when hot water is required thereby saving energy.
	ECO disc cartridge	This Roca-exclusive technology helps to save water and energy. As the tap handle is raised, a slight resistance is reached at 50% of the water flow; lifting beyond this bite point produces a full flow. The cartridge has a temperature limiter which can be set at installation to eliminate the risk of scalding. The temperature limiter can be altered after installation.
	Cold Start	The flow always starts with cold water meaning water systems are only activated when hot water is required thereby saving energy.
	EverShine [®]	Roca's innovative EverShine® chrome plating system, involving electrolytic coating, produces a hard-wearing finish on taps and showers. It helps to maintain the shine and makes for easy cleaning.
	SafeTouch [®]	Development in materials has allowed Roca to develop SafeTouch® technology which prevents the chrome plating on thermostatic fittings from overheating. This eliminates the risk of scalding and is particularly beneficial in environments used by the young, the elderly and the less mobile.
- P quick	Security 38⁰®	A safety device (red button) that stops the control knob being turned beyond 38°C.
50% ECO	Quick Reaction®	Quick Reaction® technology ensures that Roca thermostatic fittings reach the required flow and temperature in less that 3 seconds. Both then remain constant, irrespective of variations in water pressure.
(G	50% ECO	A selection of thermostatic wall-mounted products come with a blue button that instantly reduces the water flow by 50 when pressed.
CDC	Lifetime Guarantee	In accordance with our commitment to create products for you of the highest quality that stand the test of time, we delighted to offer a lifetime guarantee against manufacturing defects on all ceramic disc cartridges.
o	Ceramic Disc Cartridge	Ceramic disc cartridges are hard wearing and long lasting to provide a watertight seal.
(5)	RocaBox Compatibility	Concealed shower valve housing unit designed to suit multiple built-in shower valves. Compact in size, able to fit within 70mm cavity. Compatible with manual and thermostatic valves.

Acrylic bath panels

Reinforced standard and tall panels go through a two stage reinforcement process to make them strong, rigid, smooth and glossy.

Superthick panels are made from double thickness, high impact polystyrene.

 Customer at the time of delivery and the Supplier shall not be
 liable for the loss or non-delivery of any part of a consignment
 which has been signed for by the Customer or his Agent. If any
 defects are identified during this inspection, the Customer (or hi
 Agent) must notify the Supplier's representative immediately.

QUALITY AND FITNESS FOR PURPOSE

- The Supplier warrants that, for the relevant time periods set at www.uk.roca.com/professionals/resources/product-guarantees, all Goods purchased after 1 September 2008 shall: conform in all material respects with their description; be free from material defects in design, material and workmanship; be of satisfactory quality (within the meaning of the Sale of Goods Act 1979); and be fit for any purpose held out by the Supplier.
- As the Customer's sole and exclusive remedy, the Supplier shall, at its option, repair, replace, or offer a partial or full refund of the

- the Supplier has confirmed the defect; and the Customer has
- demonstrated proof of purchase to the Supplier.
 The Supplier shall not be liable for Goods' failure to comply with the warranties set out in Clause 5.1 if:
- warranties set out in Clause 5.1 ff:
 the Customer makes any further use of such Goods after giving
 notice of defects; the defect arises because the Customer failed to
 follow the Supplier's oral or written instructions as to the storage,
 commissioning, installation, use and maintenance of the Goods
 or (if there are none) good trade practice regarding the same; the
 Customer alters or repairs such Goods without the written consent of the Supplier; the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal storage or working conditions; or the defect would reasonably have been apparent on initial inspection of the goods as per clause 4.6.

 The Supplier's only liability to the Customer if the Goods fail to
- comply with the warranties set out in Clause 5.1 is as set out in this Clause 5 and, in any event, shall be limited to the cost of the order to which the claim relates.
